

Himanshu Kumar Sharma

Full Stack Developer

Noida, India | himanshu7061sh@gmail.com | [7061378021](tel:7061378021) | linkedin.com/in/him-ansh-u | github.com/Him-ansh-u

Summary

Full Stack Developer with experience building scalable, user-centric web applications using Next.js, React, TypeScript, Tailwind CSS, and modern UI libraries. Strong experience in frontend architecture, performance optimization, and UI/UX quality, with backend experience using Node.js, Express, MongoDB, REST APIs, and authentication systems. Comfortable delivering end-to-end features and collaborating effectively in remote teams.

Experience

Hexadecimal Software Pvt. Ltd., Associate Software Developer

Noida, UP

Tech Stack: Next.js, React, Gatsby, TypeScript, Zustand, Node.js, Express, MongoDB, Razorpay API, Facebook Graph API, Tailwind CSS

Oct 2024 – Jan 2026

- Improved overall application performance and Core Web Vitals, increasing Google PageSpeed score from 50 to 95 by optimizing rendering strategies, data-loading patterns, and request handling.
- Designed and developed admin dashboard features integrating Facebook and Instagram Graph APIs, enabling seamless multi-platform property ad publishing.
- Implemented a custom Next.js server to support advanced routing, logging, and error handling, improving application reliability and long-term maintainability.
- Built secure authentication flows and custom APIs using Node.js and Express, optimizing cookie handling and session management to improve performance and stability.
- Debugged and resolved complex issues across application layers, including Next.js 14 rendering behavior, CSS inconsistencies, and server-side edge cases.
- Integrated Razorpay payment gateway into application workflows, enabling secure payment processing and smooth checkout experiences.

NexG Tech, Full Stack Engineer

Remote

Tech Stack: Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, Mantine UI, Framer Motion, Git

Jan 2024 – Oct 2024

- Developed core product features for an automated recruitment platform, including assignments and AI-powered interview modules, with primary ownership on the frontend.
- Built scalable and responsive UI components using Next.js, TypeScript, Tailwind CSS, and Mantine UI across complex user flows.
- Integrated frontend components with existing APIs and contributed to backend API improvements, while managing data fetching, loading states, and error handling to ensure reliable user experiences.
- Implemented animations and micro-interactions using Framer Motion to improve usability and overall interface polish.
- Collaborated closely with designers, backend developers, and product stakeholders to clarify requirements and deliver high-quality features.
- Debugged issues beyond the UI when needed, helping improve overall application stability through testing and bug fixing.
- Used Git and GitHub for version control, pull requests, and structured collaboration in a remote team environment.

Skills

Frontend

React, Next.js, Gatsby

Databases

MongoDB, MySQL

Cloud

Amazon Web Services (AWS)

Backend

Node.js, Express.js

Animation Libraries

Framer Motion

Mobile Apps

React Native

UI Libraries

Tailwind CSS, Mantine UI, Material UI

Languages

JavaScript, TypeScript, Python

Tools

Git, GitHub, Docker, Postman

Education

Amity University Online

Master of Computer Application (MCA)

Noida, UP

2024 – 2025

Sarala Birla University

Bachelor of Computer Application (BCA)

Noida, UP

2020 – 2023
